

Recommendation Management

Smarter recommendation tracking with AI-assisted workflows, automated follow-up, and clear visibility from inspection to closure.

Key Features

Customizable Dashboard

Gain full visibility into your work orders with a user-friendly, customizable interface.

Comprehensive Rec Tracking

Manage all client letters (received or created), log important dates for recommendations (rec), and utilise exception reporting.

Automated Notifications

Get reminders and notifications at 30 and 45 days to ensure timely follow-up.

Threaded Recommendations

Organize and track different recommendation threads for easier management.

AI-Enabled Scalability

Our system supports high-volume needs with AI-assisted processes and is flexible to scale based on your requirements.

Service Offerings

Flexibility

Use U.S.-based staff more efficiently and take advantage of time zone differences for overnight work.

Cost Reduction

Save on hiring, training, infrastructure, and technology investments.

Growth

Free up internal staff to focus on building customer relationships and high-value tasks by using AI-assisted workflows and our experienced insurance operations team.
